

# Cornell University

## Cooperative Extension

### Putnam County

### Master Gardener Volunteer

### Interest Survey

Cornell Cooperative Extension runs regular education programs and develops new ways to bring research-based information about horticulture, the environment and natural resources, landscape design, and ecologically-sound management of pests and diseases to our communities.

As a Master Gardener volunteer, you are a part of this vitally important education process. You help us bring the University to the people. And we want you to enjoy being part of that process by using your talents in the areas that interest you most. Will you please tell us about your particular interests and how you might like to pursue them as a Master Gardener volunteer.

1. In what horticulture categories do you have the most experience?  
 Trees and Shrubs             Lawns             Herbs
